Mr. Cobden Proposed by Mr. Bright for Parliament.

On the 13th of April Mr. Bright, M. P., addressed a large awdience in the public hall, Rochdaic, on behalf of Mr. Cobden, who is a candidate for the representation of that borough in Parliament. A resolution having been moved, seconded and carried with acclassion that Mr. Cobden was a dt and proper person to represent Rochdale in Parliament, Mr. Bright, who was leadly cheered, after a few latroductory observations, proceeded to give a brief sketch of Mr. Cobden's carver. He said he (Mr. Cobden) was one of themselves, and that it was quite likely that his ancestry were reated in one of our Eaglish counties at the time of the Norman conquest, but he never beasted that these ancestors came over here with the Conqueror. (Laughter) He (Mr. Cobden) began by actitating the anti-corn law question, and they knew what had been the result. When Mr. Cobden was first sent to Parliament, there was necessarily, owing to his fame as an agitator, some auxiety in the mount of the man bis first speech, he (Mr. Bright) was me to pear what he had got to Bay. Death of Madame Bosic.

The theatrical profession has received a severe loss in the sudden death of Madame Bosic, the soprano singer, who was engaged by Mr. Gye to appear at the Royal Italian Opers soon after Paster. She died on the 12th inst. at St. Petersburg. The immediate cause of death is not known. Her lose will be severely felt by the intresid manager, and will, no doubt, be equally felt by the intresid manager, and will, no doubt, be equally felt by the habitues of the Opers.

The London Times of 15th inst., in noticing the performances at the Royal Italian Opera on Thursday night, pays the following eloquent tribute to the memory of the decassed.—"Had the acting of Signor Rosconi, never theless, been ten times as great, and all the rest of the performance to match, it would have failed to create any deep sense of enjoyment in the audience which filled the theatre last night. A heavy gloom, indeed, bung over the proceedings—a gloom which the brightest manifestation of genius would have failed to dispel. The telegraphic wire in the course of the day had brought intelligence from the capital of Russis at once disastrons to the theatre and to art. Refer the opera commenced, news of the carly and unexpected death of one as much admired by the public as the was esteemed and loved by her fellow-artists, and who for years past had been a brilliant ernament, not only of the Royal Italian Opera in London, but of the chief lyric theatres of the Continent; was convoyed from mouth to mouth, until it errousted all over the house. Madame Angiolina Bosic, the most accomplished soprano of the day, expired at St. Petersburg on Tuesday last, after a very short litness. She had just returned from a professional visit to Moscow, and was about to East for England to fulfil her engagement with Mr. Gye. The manager of the Royal Italian Opera, however, was not destined again to derive advantage from her distinguished co-operation, nor his subscribers to be

E. F. SATTERTHWAITE'S CIRCULAR.

LONDON, April 15, 1859.

We have had a dull market in London during the past week for American securities, there being but little demand, except for the United States 5 per cent bonds, 1874. Illinois Free Land bonds have declined from 88 to 55. It appears that the London Committee have proposed some modification of the ersolution of the directors, in reference to allowing shareholders to pay up in full. What these modifications are, we are not informed, but, for the present, the resolutions given in our circular of March 30, cannot be acted unon, another proof of the inconvenience of having a committee sitting in London without any legalty constituted authority, and yet attempting to exercise a controlling infence over the Board of Directors duly appointed by the shareholders, and citting at New York. Consols close 94% to 5 for money and 95 to 36 for account.

Fire is Broadway.—Shortly after ten o'clock on Wednesday night a fire was discovered in the metallic buriat case warcrooms of Raymond & Co., No. 536 Broadway. The firemen were quickly at the premises, and soon extinguished the fire. The damage to the stock by fire and water will probably amount to \$1,500—insured for \$2,000 in the Market Insurance Company. The budding is damaged about \$100—insured in the Knickerbooker and Stuyvesant Insurance companies. The fire, it is supposed, was caused by spontaneous combustion.

Fire is strin Singer—A Young Grill Burskip to Diatrit.—About two o'clock on Thursday morning a fire cocurred in the tenement house No. 183 Sixth street, in the bedroom of Miss Matilda Sawyer. It appears that Miss Sawyer had parted company with a young man, to whom she was soon to be married, only an hour before the fire. It is supposed that on rottring to her room the fluid lamp was upset or exploied, and set fire to her clothes and the room. When the flames were extinguished the unfortunate girl was found burined almost to a crips. Her romains were taken to the Eleventh precinct station house. She was about twenty years of age. The damage to the building is but triffing.

Arm 28—The People vs. John and Ellen Lynch.—The prisoners are indicted for the manslaughter of Wm. F. Baker by stabbing him with a shoemaker's knife on the night of the 20th of January last, in Pears street, near Elm. It appears that on the night in question Maria Lynch, the mistress of the deceased and stater of the maie prisoner, were in a state of intextection. A quarrel ensued, in the course of which Lynch stabbed Baker, the wife Ellen being an accessory. Ex.Judge Staart, who was assigned as counsel for the defence, contended that the parties should be acquitted, as the only evidence against them was that of the mistress of the deceased, and that, as all the parties were in a state of intextication, the testimony was not reliable. Verdict not guilty. The prisoners were discharged.

R. R. HELPING DIMEASE.

When the faculty take sides with the disease, God help the patient. By taking sides with the disease, we mean breaking down the little strength he has, and thus leaving him at the merry of the maindy. Violent purging, calometration, over whelming opiales, powerful soporfice, are very excellent alies of all disorders. Avoid them: Southe the arctical system with that wonderful counter-irritant, Radway's Resqu'shiler, restere the hermony and equability of the direction with a counter-irritant, and the relative of the direction of the direct

these carriers, Radway's Resolvent is the grand sounter-basi.

If a man suffer the executating structure of neuralgia, rhemmatism, name and aches in his bones or joints, or become crupied with infraction, included by jorg sickness or misquid tertification, it is his own fault; for it is well known to every intelligent person that Rad way's Ready Relief and Radway's secundaring PHBs will needledy vid him of these discreters. These remedies are within the reach of every one. There is not a village or neighborhood on this continent but that there is an agency established for their sale.
